

RUSSIA HURLS TWENTY ARMY CORPS AT BERLIN

GENERAL SITUATION UNCHANGED

So Says Paris Official Statement.

GERMAN RIGHT WING MEETS WITH CHECK

London Hears Kaiser's Forces Are Falling Back.

Paris, Sept. 5.—The following official announcement was made: "The movements of the opposed armies outside Paris continued without any attempt having been made by the enemy against our various positions. "In the district of Verdun the German force has sustained some checks. In Lorraine and the Vosges our troops won fresh successes. The general situation is little changed."

CHECK GERMAN RIGHT WING

Report Says Allies Have Forced Enemy to Retire.

London, Sept. 5.—It is learned on good authority that the advance movement of the German right wing has been checked for the last two days under pressure from the left wing of the allies. The enemy has been compelled to retire on St. Quentin.

A big force of German cavalry that was advancing on Compiègne was vigorously repulsed and forced to abandon several pieces of artillery. It appears that the attempt to envelop the allies' left wing was frustrated.

LANDING RUSSIAN TROOPS

British Transports Pouring Men Into Belgium.

New York, Sept. 5.—Further corroboration of reports that Russia has been landing troops on Belgian soil by way of England and Scotland reached New York when Dr. Daniel Elliott of Newark, N. J., a passenger on the steamship Cedric, declared he witnessed a movement of troop trains conveying Russians through England.

The Cedric arrived from Liverpool with 1,460 passengers, including many American refugees. Dr. Elliott would not say in what part of England he was when he saw the troop trains.

He estimated the number of Russians at more than 70,000 and declared they had come by way of Northern Scotland and were on their way to the English channel to embark for the continent.

DAMAGED VESSELS ARRIVE AT KIEL.

London, Sept. 5.—The official information bureau has issued a statement saying: "According to information derived from a trustworthy source seven German destroyers and torpedo boats have arrived at Kiel in a damaged condition and it is understood that others have been sunk in the vicinity of the Kiel canal."

BRITISH SINK AUSTRIAN SHIP

Cruiser Takes Off Crew and Then Destroys Vessel.

London, Sept. 5.—The sinking of the Austrian steamer Balthor by a British cruiser in the Bay of Biscay was reported.

The Austrian refused to heave to until the cruiser put a shot across its bow. The warship then took off the crew and sent the steamer to the bottom. The prisoners taken included a German imperial staff officer.

The Balthor was a steamer of 1,383 tons. It plied between Flume and French ports and was reported in Havre roads Aug. 5.

Russians Attack Austrian Flank.

London, Sept. 5.—The Rome correspondent of the Exchange Telegraph company says dispatches from Vienna announce that following its success at Lemberg the Russian center has suddenly begun a movement northward against the flank of the army under the Austrian, General von Aulenburg and Dankel, who have been successfully operating against Lublin and Znamobac.

GRAND DUKE NICHOLAS.

Commander-in-Chief of Russian Forces.

AS FAST AS IT IS OCCUPIED

Russians Provide for Governing Foreign Territory.

Petrograd, Sept. 5.—Grand Duke Nicholas, commander-in-chief of the Russian forces, has issued a general order providing for the military administration of all foreign territory as fast as it is occupied by the Russian troops.

The order calls for the creation of a special province consisting of the territory occupied in Austria-Hungary and the placing of it under the administration of the commander of the armies operating in the theater of war in the southwest.

LATEST DEVELOPMENTS IN EUROPE.

While the official announcement made by the British and French authorities was to the effect that there had been no change in the situation in the belligerent armies unofficial reports said that the German right wing had been checked and forced to retire on St. Quentin on the River Somme, thirty miles northwest of Laon.

The British official press bureau, in its statement, said a German movement was developing in an eastward and southeastward direction. The exact geographical location of this movement was omitted.

Further confirmation was received in New York that many thousands of Russian troops had gone into France to join the allies against the Germans. Their number was estimated at between 70,000 and 80,000.

Newspaper reports to London said the Germans were operating in the district between Alost and Termonde, Belgium, and that the latter town was being bombarded.

The official Russian statement concerning the capture of Lemberg, capital of Galicia, says that it is believed the remnant of the Austrian army left after the Russian attack is no longer of military value. Besides the thousands of men killed, wounded or made prisoners the Russians report that they took 200 guns from the Austrians.

The Bulgarian minister to Greece declares that Bulgaria has decided to maintain her neutrality until the end of the war.

BATTLE SAID TO BE RAGING IN BELGIUM

Dispatch Gives No Particulars of Forces Engaged.

London, Sept. 5.—A dispatch to Reuters' Telegram company from Ostend says:

"At this moment fighting is proceeding in the district between Alost and Termonde, Belgium. The railway near Alost has been blown up."

"Travelers from Brussels were obliged to pass through Ninove and Alost and then to return south to Denderleu, whence they proceeded by the way of Gattegem and Ghent to Ostend."

"At Ninove six German Uhlans who were patrolling the country encountered a patrol of gendarmes and were killed."

Termonde (Dendermonde) is a fortified town of Belgium, sixteen miles east of Ghent. The town has a population of about ten thousand.

Mutiny in Czech Regiments.

London, Sept. 5.—The Daily Telegraph says it learns from a reliable source that two Czech regiments at Vienna mutinied when ordered into active service. They were drawn up in the Prater and a large number were shot. Similar reports of dissatisfaction in a Czech regiment have reached London from another source.

Special to Dispatch:

St. Petersburg, Sept. 5, 11:20 A. M.—The Russian army today began serious operations against the Germans. Troops which have been operating both in northern and southern sections of Eastern Prussia were ordered to resume the offensive. Additional troops are being pushed forward and at the war office it was stated that fully twenty army corps totalling nearly 800,000 men will be immediately pushed forward on the march to Berlin.

PARIS IS NEXT STOP OF ALLIES

Special to Dispatch:

London, Sept. 5, 11:50 A. M.—What is described as the arrowhead of the German army, which has been slowly forcing its way through the Anglo-French army towards Paris, has made further progress, according to the German official reports issued today, and has driven the Allies back behind Conde. Cavalry raids too are being made in the direction of Paris, which if accounts are correct will be the next stop of the Allied armies.

GERMANS PREPARE FOR RUSSIAN ADVANCE

Special to The Dispatch:

London, Sept. 5, 1:45 P. M.—A dispatch to the Daily News from Copenhagen says Berlin dispatches indicate that the Germans are throwing troops back eastward to meet the Russian advance. Further indications that point to troops being withdrawn from Alsace and Lorraine.

All German railroads are now closed to civil traffic and land communication from Berlin to Copenhagen has stopped.

RUSSIAN INVASION MENACE TO BERLIN

Special to The Dispatch:

London, Sept. 5, 2:55 P. M.—That the Russian advance in East Prussia has become a menace to Berlin is indicated in advices received by the Paris Matin that five German army corps have arrived at the Vistula river, along which stream are located a number of German fortresses extending in a line south and west from Koenigsberg.

PLANS TO MAKE A TURNING MOVEMENT

Special to The Dispatch:

Paris, Sept. 5, 2:55 P. M.—It has become apparent to observers here that the Germans do not intend to engage the Allied armies sent to meet them northwest of Paris, the enemy evidently making an extended turning movement.

DUE TO EUROPEAN DEMAND

Wheat Rises Over Six Cents on the Chicago Market.

Chicago, Sept. 5.—It seemed on the exchange here as if food for armies and people had taken the lead as the chief requisite ahead for war swept Europe. Transatlantic call for breadstuffs was said to be without a parallel in the history of the trade and resulted in a sweeping advance of prices, the extreme point of which was 6 1/2 cents a bushel higher for wheat as compared with Thursday's close.

Excitement in the wheat pit fairly boiled over just before the finish when the May option sold as high as \$1.31 1/4, marking an ascent of 4 1/2 cents since the day Germany announced that hostilities had become inevitable.

PROMPT ACTION PROBABLE

Congress Considers Plans for Raising Emergency Revenue.

Washington, Sept. 5.—President Wilson's appeal to a joint session of congress for an emergency internal revenue measure to raise \$100,000,000, the government's probable loss in customs receipts because of the war in Europe, met with quick action.

As soon as the president had left the house chamber amidst an outburst of applause Speaker Clark referred the message to the ways and means committee. Democratic members of the committee met at the call of the chairman, Representative Underwood, and began consideration of plans to raise the additional revenue. Various members suggested sources which they believed would yield additional income.

The Little Thing Counted. The Pastor (dining with the family)—Ah, yes, Brother Smithers, it is the little things of this life that count! Little Willie (in a loud whisper)—Maw, that's the sixth biscuit he's took—Exchange.

GERMANS CONTINUE CONFIDENT

Believe Advance Can Not Be Checked.

MILITARY EXPERT REVIEWS SITUATION

Austrian Motor Batteries Aid in Reducing Forts.

Berlin, by wireless via Sayville, L. I., Sept. 5.—The armies of Duke Albrecht and the crown prince soon will reach Chalons and Verdun, which easily can be masked without delaying the advance, in the expectation of Major Morhat, military expert of the Tageblatt.

These towns have lost their strategic importance. Toul and Epinal, the latter the capital of the department of Vosges, may delay the armies of Prince Rupprecht and General von Heeringen, but this is unimportant. Raids in Upper Alsace are to be expected while Belfort is in the hands of the French, but this is without significance so far as the general result is concerned.

The Lokal Anzeiger points out that the taking by the Germans of La Fere and Laon almost without a blow means the capture of a position on the line where the population had been reassured and which line, according to the assertion of the latest English papers received here, would hold out long against the Germans.

It has been revealed that Austrian motor batteries, each consisting of two twelve-inch guns mounted in automobiles, have been co-operating with the German heavy artillery in the reduction of northern fortresses. The mobility and accuracy of the fire of these batteries is highly praised by headquarters and the special correspondents.

The decoration of the Order of the Iron Cross has been conferred upon Aviator Lieutenants Zahn and Rheinhardt. The aerial arm of the German forces probably will receive many such distinctions, as their achievements over a heavy fire have been remarkable.

GERMANY MAKES THE CHARGE

Asserts United States Craft Coal British Ships.

New York, Sept. 5.—Count von Bernstorff, German ambassador to the United States, announced that he had received positive information that two British cruisers lying ten miles from New York harbor had received supplies of coal, provisions and ammunition from a vessel flying the American flag.

The supplies, Count von Bernstorff said, were taken aboard Thursday, according to his information. He declined to give his authority for making the statement or to say what steps he intended to take, if any. The neutrality laws are so vague, he declared, that he does not know exactly what he is going to do.

ROME DISPATCH TELLS OF ROUT OF AUSTRIANS.

London, Sept. 5.—A dispatch to the Exchange Telegraph company from Rome says a message received there from Petrograd confirms the report that the Russians have completely routed the Austrians near Tomazow and that two generals are among the Austrian dead.

ULSTER VOLUNTEERS ENLIST

Seven Hundred Men Register in About an Hour.

Belfast, via London, Sept. 5.—Within an hour after the opening of the recruiting office for Ulster volunteers 700 men of the North Belfast regiment had enrolled for foreign service. Sir Edward Carson, leader of the Ulster Unionists, addressed a battalion of volunteers, assuring the men that "sufficient volunteers will remain in Ulster to protect it from invasion. It will keep as a province for you until you return."

CALLS GERMAN LOSSES HEAVY.

London, Sept. 5.—The Copenhagen correspondent of the Standard says: "The Germans are mourning 100,000 dead."

ROBERT BACON.

Former Ambassador is at the Paris Legation.

GRATIFIES PARIS PAPERS

American Decision to Maintain Its Embassy in Capital.

Paris, Sept. 5.—The decision of the American government to maintain its embassy in Paris during the days to come is commented upon with warm appreciation by nearly all the newspapers of the capital. The services of Elihu Benjamin Washburne to his countrymen and to all the residents of Paris in 1871 are recalled. Mr. Washburne was American minister here between 1869 and 1877.

William Graves Sharp, who has been appointed to succeed Ambassador Herrick, and who, pending the transfer, will assist Mr. Herrick here, and Robert Bacon, a former ambassador to France, now here, have been referred to as "delegation of eminent Americans, whose presence will be on the side of conscience and reason."

BRITISH TO RETURN NEUTRAL CARGOES

Envoy Spring-Rice Says Action Is Taken to Encourage Trade.

Washington, Sept. 5.—The British government has taken steps to return promptly to American ships cargoes captured aboard German steamers. Sir Cecil Spring-Rice, the British ambassador, delivered to Secretary Bryan the following note expressing the attitude of his government:

"In order to prevent loss to subjects of neutral powers and to encourage continuance of trade his majesty's government has taken steps to set free expeditiously and without reference to a prize court as many cargoes as possible, even though in some cases cargoes may be liable in law to condemnation as a prize. An executive committee with full power to deal with such cases has been appointed."

Cargoes referred to were those aboard German ships en route when war was declared. About 150 such ships have been captured by the British fleets. Some cargoes were diverted to Gibraltar, others to points in Canada and the Bermudas and American shippers generally have been anxious for a prompt recovery of their goods.

COLONEL BRETT IS KILLED

Distinguished British Officer Falls in France.

London, Sept. 5.—The war office issued another list giving the names of officers killed, wounded or missing in the fighting in France. Among those killed is Lieutenant Colonel C. A. H. Brett, D. S. O. (distinguished service order), of the Suffolk regiment.

Included in the list are junior officers of the Coldstream guards and other crack regiments.

Colonel Brett was a veteran of the Mazarra (British India) expedition and of the South African war.

CALLS PARIS WELL GUARDED

French Senator Says 1,000 Cannon Are in Position.

Paris, Sept. 5.—Emile Almond, president of the finance committee of the senate and an authority on military affairs, declared to the newspapers that for a circumference of 150 miles around the entrenched camp of Paris is defended by 1,000 cannon of large caliber, perfectly sheltered and capable of crossing the fire so as to defend all approaches.

The batteries, he said, are connected with supply depots by miles of narrow gauge railway tracks.

ATHLETES FLOCKING TO COLORS

Thousands of Britons Enlisting.

KITCHENER WILL SOON HAVE 500,000 MEN

Premier Asquith and Other Leaders Appeal to People.

London, Sept. 5.—Events in Northern France and the campaign started by Premier Asquith and other leaders have given immense impetus to recruiting.

It is predicted in official circles that Lord Kitchener soon will have the half million men he desires. Cricketers, football players and other athletes who at the beginning of the war were inclined to keep their engagements have canceled all games and are flocking to the colors.

The Association of Rugby Football organizations has canceled all its matches, most of the players having joined the forces.

Every player on last year's international team is serving either in the army or navy, or is in training for the service. Every Salvation Army corps in the country has contributed its quota of men to the army and navy and other members of the organization have volunteered for Red Cross work.

Premier Asquith made the first of a series of appeals for an increase of the British land forces. At a meeting at Guild hall he described the empire as involved in a bloody arbitration of might versus right and urged every able-bodied Briton of military age to join the colors.

The navy, the premier indicated, was already doing its part. It had sealed up the fleet, he said, and was thirsty for a test of strength in the open.

British warships, Mr. Asquith said, had driven the German mercantile marine from the high seas and when the few German cruisers which still infested the distant ocean had been disposed of, as they would be soon, the navy would have achieved for British and neutral commerce a security as complete as it had never enjoyed in days of unbroken peace.

WILL PASS THROUGH CANADA

East Indian Troops Bound for French Battlefields.

St. Paul, Sept. 5.—Seventy-five trainloads of East Indian troops will pass through Canada, bound for the battlefields in France, within the next week or two, according to a message from Winnipeg. These trains will carry the two divisions from India, which Premier Asquith in his Guild Hall speech in London announced are on their way.

Reports reached St. Paul that large numbers of British Indian troops have been passing through Winnipeg in the last few days. A message from that city failed to corroborate the reports, but the censorship may be concealing the exact situation in the movement of troops. The Winnipeg telegram said the only East Indian troops seen there were the Bengal lancers and troops that have seen service in British Columbia. These went through a week ago.

Bulgaria Remains Neutral.

Paris, Sept. 5.—A Havas dispatch from Athens says that the Bulgarian minister to Greece has assured the government that Bulgaria has decided to maintain the strictest neutrality until the end of the war.

WORK OF MACHINE GUNS

English Soldiers Declare They Do Terrible Execution.

London, Sept. 5.—English soldiers from the front tell some wonderful stories about the terrible execution done by their machine guns on the advancing Germans.

"We take up a position on the roadside and wait for them to come," said one of these soldiers. "When they are two or three hundred yards away we are eager to fire. Says the captain: 'Wait a bit until I am sure they are not English.'"

"He looks through his glasses and then says: 'Let them have it, boys.' 'Off it goes and you see fifty or sixty drop. But it makes little difference; others come on and then we move our guns.'"

RUSSIA HURLS TWENTY ARMY CORPS AT BERLIN

GENERAL SITUATION UNCHANGED

So Says Paris Official Statement.

GERMAN RIGHT WING MEETS WITH CHECK

London Hears Kaiser's Forces Are Falling Back.

Paris, Sept. 5.—The following official announcement was made:

"The movements of the opposed armies outside Paris continued without any attempt having been made by the enemy against our various positions."

"In the district of Verdun the German force has sustained some checks. In Lorraine and the Vosges our troops won fresh successes. The general situation is little changed."

CHECK GERMAN RIGHT WING

Report Says Allies Have Forced Enemy to Retire.

London, Sept. 5.—It is learned on good authority that the advance movement of the German right wing has been checked for the last two days under pressure from the left wing of the allies. The enemy has been compelled to retire on St. Quentin.

A big force of German cavalry that was advancing on Compiègne was vigorously repulsed and forced to abandon several pieces of artillery. It appears that the attempt to envelop the allies' left wing was frustrated.

LANDING RUSSIAN TROOPS

British Transports Pouring Men Into Belgium.

New York, Sept. 5.—Further corroboration of reports that Russia has been landing troops on Belgian soil by way of England and Scotland reached New York when Dr. Daniel Elliott of Newark, N. J., a passenger on the steamship Cedric, declared he witnessed a movement of troop trains conveying Russians through England. The Cedric arrived from Liverpool with 1,460 passengers, including many American refugees. Dr. Elliott would not say in what part of England he was when he saw the troop trains. He estimated the number of Russians at more than 70,000 and declared they had come by way of Northern Scotland and were on their way to the English channel to embark for the continent.

DAMAGED VESSELS ARRIVE AT KIEL

London, Sept. 5.—The official information bureau has issued a statement saying: "According to information derived from a trustworthy source seven German destroyers and torpedo boats have arrived at Kiel in a damaged condition and it is understood that others have been sunk in the vicinity of the Kiel canal."

BRITISH SINK AUSTRIAN SHIP

Cruiser Takes Off Crew and Then Destroys Vessel.

London, Sept. 5.—The sinking of the Austrian steamer Balthor by a British cruiser in the Bay of Biscay was reported.

The Austrian refused to heave to until the cruiser put a shot across its bow. The warship then took off the crew and sent the steamer to the bottom. The prisoners taken included a German Imperial staff officer.

The Balthor was a steamer of 1,383 tons. It plied between Flume and French ports and was reported in Havre roads Aug. 5.

Russians Attack Austrian Flank.

London, Sept. 5.—The Rome correspondent of the Exchange Telegraph company says dispatches from Vienna announce that following its success at Lemberg the Russian center has suddenly begun a movement northward against the flank of the army under the Austrian, Generals Auenburg and Dankel, who have been successfully operating against Lublin and Zamoah.

GRAND DUKE NICHOLAS.

Commander-in-Chief of Russian Forces.

AS FAST AS IT IS OCCUPIED

Russians Provide for Governing Foreign Territory.

Petrograd, Sept. 5.—Grand Duke Nicholas, commander-in-chief of the Russian forces, has issued a general order providing for the military administration of all foreign territory as fast as it is occupied by the Russian troops.

The order calls for the creation of a special province consisting of the territory occupied in Austria-Hungary and the placing of it under the administration of the commander of the armies operating in the theater of war in the southwest.

LATEST DEVELOPMENTS IN EUROPE.

While the official announcement made by the British and French authorities was to the effect that there had been no change in the situation in the belligerent armies unofficial reports said that the German right wing had been checked and forced to retire on St. Quentin on the River Somme, thirty miles northwest of Laon.

The British official press bureau, in its statement, said a German movement was developing in an eastward and southeastward direction. The exact geographical location of this movement was omitted.

Further confirmation was received in New York that many thousands of Russian troops had gone into France to join the allies against the Germans. Their number was estimated at between 70,000 and 80,000.

Newspaper reports to London said the Germans were operating in the district between Alost and Termonde, Belgium, and that the latter town was being bombarded.

The official Russian statement concerning the capture of Lemberg, capital of Galicia, says that it is believed the remnant of the Austrian army left after the Russian attack is no longer of military value. Besides the thousands of men killed, wounded or made prisoners the Russians report that they took 200 guns from the Austrians.

The Bulgarian minister to Greece declares that Bulgaria has decided to maintain her neutrality until the end of the war.

BATTLE SAID TO BE RAGING IN BELGIUM

Dispatch Gives No Particulars of Forces Engaged.

PROMPT ACTION PROBABLE

Congress Considers Plans for Raising Emergency Revenue.

Washington, Sept. 5.—President Wilson's appeal to a joint session of congress for an emergency internal revenue measure to raise \$100,000,000, the government's probable loss in customs receipts because of the war in Europe, met with quick action.

As soon as the president had left the house chamber amidst an outburst of applause Speaker Clark referred the message to the ways and means committee. Democratic members of the committee met at the call of the chairman, Representative Underwood, and began consideration of plans to raise the additional revenue. Various members suggested sources which they believed would yield additional income.

William Graves Sharp, who has been appointed to succeed Ambassador Herrick, and who, pending the transfer, will assist Mr. Herrick here, and Robert Bacon, a former ambassador to France, now here, have been referred to as "delegation of eminent Americans, whose presence will be on the side of conscience and reason."

BRITISH TO RETURN NEUTRAL CARGOES

Envoy Spring-Rice Says Action Is Taken to Encourage Trade.

Washington, Sept. 5.—The British government has taken steps to return promptly to American ships cargoes captured aboard German steamers. Sir Cecil Spring-Rice, the British ambassador, delivered to Secretary Bryan the following note expressing the attitude of his government:

"In order to prevent loss to subjects of neutral powers and to encourage continuance of trade his majesty's government has taken steps to set free expeditiously and without reference to a prize court as many cargoes as possible, even though in some cases cargoes may be liable in law to condemnation as a prize. An executive committee with full power to deal with such cases has been appointed."

Cargoes referred to were those aboard German ships en route when war was declared. About 150 such ships have been captured by the British fleets. Some cargoes were diverted to Gibraltar, others to points in Canada and the Bermudas and American shippers generally have been anxious for a prompt recovery of their goods.

COLONEL BRETT IS KILLED

Distinguished British Officer Falls in France.

London, Sept. 5.—The war office issued another list giving the names of officers killed, wounded or missing in the fighting in France. Among those killed is Lieutenant Colonel C. A. H. Brett, D. S. O. (distinguished service order), of the Suffolk regiment.

Included in the list are junior officers of the Coldstream guards and other crack regiments.

Colonel Brett was a veteran of the Mazarra (British India) expedition and of the South African war.

CALLS PARIS WELL GUARDED

French Senator Says 1,000 Cannon Are in Position.

Paris, Sept. 5.—Emile Aimond, president of the finance committee of the senate and an authority on military affairs, declared to the newspapers that for a circumference of 150 miles around the entrenched camp of Paris is defended by 1,000 cannon of large caliber, perfectly sheltered and capable of crossing the fire so as to defend all approaches.

The batteries, he said, are connected with supply depots by miles of narrow gauge railway tracks.

ATHLETES FLOCKING TO COLORS

Thousands of Britons Enlisting.

KITCHENER WILL SOON HAVE 500,000 MEN

Premier Asquith and Other Leaders Appeal to People.

London, Sept. 5.—Events in Northern France and the campaign started by Premier Asquith and other leaders have given immense impetus to recruiting.

It is predicted in official circles that Lord Kitchener soon will have the half million men he desires. Cricketers, football players and other athletes who at the beginning of the war were inclined to keep their engagements have canceled all games and are flocking to the colors.

The Association of Rugby Football organizations has canceled all its matches, most of the players having joined the forces.

Every player on last year's international team is serving either in the army or navy, or is in training for the service. Every Salvation Army corps in the country has contributed its quota of men to the army and navy and other members of the organization have volunteered for Red Cross work.

Premier Asquith made the first of a series of appeals for an increase of the British land forces. At a meeting at Guild hall he described the empire as involved in a bloody arbitrament of might versus right and urged every able-bodied Briton of military age to join the colors.

The navy, the premier indicated, was already doing its part. It had sealed up the fleet, he said, and was thirsty for a test of strength in the open.

British warships, Mr. Asquith said, had driven the German mercantile marine from the high seas and when the few German cruisers which still infested the distant ocean had been disposed of, as they would be soon, the navy would have achieved for British and neutral commerce a security as complete as it had never enjoyed in days of unbroken peace.

WILL PASS THROUGH CANADA

East Indian Troops Bound for French Battlefields.

St. Paul, Sept. 5.—Seventy-five trainloads of East Indian troops will pass through Canada, bound for the battlefields in France, within the next week or two, according to a message from Winnipeg. These trains will carry the two divisions from India, which Premier Asquith in his Guild Hall speech in London announced are on their way.

Reports reached St. Paul that large numbers of British Indian troops have been passing through Winnipeg in the last few days. A message from that city failed to corroborate the reports, but the censorship may be concealing the exact situation in the movement of troops. The Winnipeg telegram said the only East Indian troops seen there were the Bengal lancers and troops that have seen service in British Columbia. These went through a week ago.

Bulgaria Remains Neutral.

Paris, Sept. 5.—A Havas dispatch from Athens says that the Bulgarian minister to Greece has assured the government that Bulgaria has decided to maintain the strictest neutrality until the end of the war.

WORK OF MACHINE GUNS

English Soldiers Declare They Do Terrible Execution.

London, Sept. 5.—English soldiers from the front tell some wonderful stories about the terrific execution done by their machine guns on the advancing Germans.

"We take up a position on the roadside and wait for them to come," said one of these soldiers. "When they are two or three hundred yards away we are eager to fire. Says the captain: 'Wait a bit until I am sure they are not English.'"

"He looks through his glasses and then says: 'Let them have it, boys.'"

"Off it goes and you see fifty or sixty rods. But it makes little difference; others come on and then we move our guns."

Geo. B. Owen, a wealthy banker from Southern Minnesota, has just spent a couple of days in the city on business with the Security National Loan company and inspecting lands in Crow Wing and Cass counties. He was much pleased with our agricultural prospects and this afternoon left on the limited for a chicken hunt in North Dakota.

For Sale—A well improved 160 acre farm six miles from Brainerd. Telephone, R. F. D. and good ore attraction. No reservation. \$30 per acre. Owner will give part time, take in a late model car or acreage nearer city. See the Security National Loan Company.—Adv. 65

FIVE MINUTE TALKS

On Government Ownership by Northwestern Telephone Exchange Company Sent Out

The Northwestern Telephone Exchange company is this month sending out with subscribers' statements a booklet entitled "Five Minute Talks on Government Ownership." Talk No. 1 covers what government ownership is and when and why we want it.

Private operation has succeeded because it develops efficiency in getting business, in giving service, in reducing costs. Government operation has no such stimulus says the booklet.

MUSIC AND DRAMA**At the Columbia**

Everyone at this time is greatly interested in Europe's warfare in the skies and what part the aeroplane will play in the final outcome. The management does not claim this picture to be made at the scene of the war but it does give the spectator a great idea of how it all done. Two of the world's greatest dare devil drivers take the lead.

Another picture to attract attention is the Hearst Selig Pictorial. This week its good. A comedy completes the program.

Tomorrow and Monday will find the Columbia with its usual strong Sunday show. The "False Shadow" comes with John Ince, the most versatile actor in the world today.

Edwin Harris Bergh will be heard in a violin solo.

MODERN WOODMEN ARE TO CELEBRATE

"Peace Jubilee" Banquet is Planned for the Near Future. Committee Appointed

W. A. M. JOHNSON IS CHAIRMAN

State Deputy John L. Sundean Visits Local Camp and Thanked by Members for Services

The Modern Woodmen of America convention of the sixth congressional district was held in the Chamber of Commerce club rooms, eighty delegates being present.

State Deputy John L. Sundean was the principal speaker of the evening, dwelling largely upon what the insurgents have accomplished for the benefit of woodcraft. He said the battle was over and the victory was ours and now for a bigger, better and grander Modern Woodmen.

It was moved and unanimously carried that this delegation extend a rising vote of thanks to John L. Sundean for what he had accomplished for the members.

It was also decided that Brainerd Camp No. 2337 hold a banquet in the near future to be known as a "Peace Jubilee" of the Modern Woodmen and a committee was appointed to make the necessary arrangements. On this committee are W. A. M. Johnson, chairman, and S. R. Adair, C. H. Mills, A. J. Starritt, Erick Kronberg, G. S. Swanson, Richard Ilse, William Campbell, A. K. Lukens, George Gendron and A. L. Hoffman. The date is to be determined by the committee. C. H. Mills, A. K. Lukens, S. R. Adair, W. A. M. Johnson, G. S. Swanson and A. J. Starritt, in short addresses, pledged themselves to do all they could to make the affair a grand success.

That the M. W. of A. presents a sound economic advantage and is a good business proposition was the bold assertion of State Deputy Sundean to the Dispatch Friday.

The order has nearly \$15,000,000 in assets and is the only society of its age that can pay death claims on such low assessments according to the former leader of insurgency. "Those who join, immediately, share in the strong surplus and have a great insurance bargain because our risks are choice, our actual cost low, and unlike so many others, we use none of the monthly assessments for running expenses," said Mr. Sundean.

"We had a great booster meeting of the big Woodmen Camp here at the Chamber of Commerce and I was heartily encouraged to find that every man present appreciated the services of Delegate Noggle and the rest of us who took part in the sweeping and complete victory in negotiations at the last head camp as a result of which the head officers came out in favor of just what the members want and completely abandoned objectionable plans before proposed. And the spontaneous, enthusiastic rising vote of thanks to us and unanimity with which the meeting decided on getting up a big banquet convinced me as it did all others, that Woodcraft is alive and will boom in Brainerd," continued the Woodman leader.

Mr. Sundean is endeavoring to get

A. L. Hoffman to accept the district deputyship for the 6th district but Mr. Hoffman is undecided whether to take the position.

The satisfactory settlement of the troubles of the Woodmen will be celebrated at the big banquet soon to be held, which will be one of the most elaborate affairs ever undertaken in Brainerd and the society here intends to build up its membership to approximately 500.

DOING GOOD BUSINESS

Brainerd Sash & Door Co. Shipping Two Carloads of Finished Products a Week

The Brainerd Sash & Door Co. is doing a very good business, shipping two carloads of finished products weekly. The factory is being painted and signs are being painted on front and rear.

The street needs considerable filling near the factory and the city should put this in so as to give the company a place on its lot to store its products before shipment. The street is in bad shape, only a third being fit to use. A few days ago dirt was excavated north on Tenth street and hauled to other places when it might have been dumped in the low places near the factory but a few blocks away.

Did you sleep well last night?

FARM LAND IN DEMAND

Old Theory That Land Could Not be Moved Because of Iron Reserve is Exploded

Another old argument has been exploded in Crow Wing county. For months men have said that you could not sell land in this county to farmers for farming purposes because there was a mineral reserve in the title. This fallacy fell to pieces today.

Joseph J. Hennen, of St. Paul, owner of 3,600 acres of mineral lands on the range, has sold 40 acres of raw land, unfenced, with a mineral reserve in Nokay Lake township, for \$40 an acre. This land is to be converted into farm land and settled upon by bona-fide farmers.

Mr. Hennen says there has been a wonderful increase in inquiries about Crow Wing county land. Every land man with interests in Crow Wing county has made it a point to bring large delegations of possible buyers to the Crow Wing county exhibit at the state fair. The Dispatch has informed Mr. Hennen that he will make no mistake when he visits the county exhibit and uses it as an object lesson to show what Crow Wing county can do.

Did you sleep well last night?

Gyllenhammer-Lindquist

Hugo G. Gyllenhammer and Miss Alida T. Lindquist were married on Tuesday afternoon at 2 o'clock at the home of Mr. and Mrs. Walter Hudson, they serving as witnesses to the pleasing ceremony, the officiating clergyman being Rev. A. Zabel. Mr. and Mrs. Gyllenhammer have gone to housekeeping in a cosy home furnished by the bridegroom and situated at 407 Fourth avenue North-east. The Dispatch joins their many friends in wishing them all possible happiness and prosperity.

COUNTERFEITERS DEN IS UNEARTHED

Police of Duluth Find a Plant Hidden in Rocks on Hill Crest Above Central Park

PETER AND MATT NIUKKONEN

Are Arrested, Charged with Making Copper "Dollars", Having Slight Ring

A counterfeiters plant has been located in Duluth on the very pinnacle of Duluth's sky-line hill. Two men were arrested and their full equipment for making counterfeit dollars, found buried in the rocks, is held as evidence against them.

Secret service men of the United States treasury department at St. Paul were notified, and an officer will arrive today to take charge of the prisoners. They are brother, Peter and Matt Niukkonen, 1712 West Second street, and say they are tailors by profession.

The equipment contains metal dies for moulding bad dollars, two double bellows with small blast furnaces attached, files, brushes, hammers, tongs and many other bits of equipment. Some of this was found in Niukkonen's house.

It is believed in Brainerd that this plant may have been the source of some of the bad "dollars" distributed about Brainerd last Saturday. Bad money has also been passed on the range.

Notice to Eagles

All members are hereby kindly urged to attend our next regular meeting on Tuesday evening, Sept. 8, as there will be initiation, refreshments, cigars, etc. 'Nuff sed.

AT THE PARK THEATRE

Dillard, the Great, and Supporting Company, Open Six Nights' Engagement Sunday Night

Professor Dillard and supporting company open a six days' engagement at the Park theatre Sunday evening, Sept. 6, and the theatre-goers of Brainerd will have the opportunity of seeing the Great Dillard whom the eastern papers have been praising so highly.

He is the original understudy of Charcot, Paris, France, and was the co-star with Nicola for a number of years.

The first feature on opening Sunday evening will be the awakening of the young man who was placed under hypnotic influence by the professor over the long distance telephone while the latter was in Mankato, Minn. At 7:30 Friday evening the young man crawled into the bed already prepared, in the window of the Myhra music store, was handed a telephone connected for the purpose, heard his master's voice and was soon in dreamland. His awakening tomorrow evening at the Park theatre will be the end of a fifty hour slumber.

In order to present to the public all that is possible in the way of the mysteries of occultism he has with him the noted Madame Noyle, termed by the press throughout the east the psychic wonder, who possesses the powers of reading questions direct from the audience while blindfolded besides taking questions at random. This lady has undergone numerous tests and her one delight is to visit the homes of the skeptical and privately demonstrate that she is in possession of this power and not under hypnotic influence.

The press everywhere speak very highly of the Dillard company and that they present an enjoyable evening's entertainment.

HEARD IN BRAINERD

How Bad Backs Have Been Made Strong—Kidney Pills Corrected

All over Brainerd you hear it. Doan's Kidney Pills are keeping up the good work. Brainerd people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townpeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Brainerd citizen's advice and give Doan's a chance to do the same for you.

Helma Rosenlund, 1107 Oak St., Brainerd, Minn., says: "I have known of Doan's Kidney Pills for three years. They have been used in our family for kidney trouble and backache with the best kind of success. We keep a supply of Doan's Kidney Pills on hand to have in case of need. We first got them at H. P. Dunn's drug store, and are only too pleased to give them our endorsement."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Helma Rosenlund had. Foster-Milburn Co., Props., Buffalo, N. Y.

Gustafson-Johnson

Miss Aurelia Christine Johnson, daughter of Mr. and Mrs. Chas. Johnson of Jenkins, and Wm. C. Gustafson, son of Mr. and Mrs. Carl Gustafson of Brainerd, were united in marriage on Wednesday evening, Sept. 2nd at the home of the bride's parents on their farm at White Fish lake, Rev. C. Hougstad, pastor of the Norwegian-Danish Lutheran church officiating. The beautiful ring service was used in the presence of relatives.

The bride was attired in a gown of white silk crepe de chene trimmed with shadow lace. The bridesmaid was Miss Walborg Johnson a sister of the bride, who was dressed in white tulle. The best man was Gus Gustafson, a brother of the bridegroom. The flowers for the evening were carnations and roses. The home was beautifully decorated with evergreen of the woods and flowers of pink and white. After the ceremony a sumptuous dinner was served and much enjoyed by all.

Mr. Gustafson was born and raised in Brainerd, having learned his trade as boilermaker in the shops here. The happy couple received many valuable and pretty presents. They left on the early train for their honeymoon and will visit relatives at Stillwater, Montevideo and Wisconsin and will also spend a week at the state fair.

They will be at home after Sept. 20th in the Mahlum block.

THE CHURCHES

Zion Evangelical Lutheran church, corner Main and Eighth streets, will have no German services Sunday morning. In the evening there will be English services at 7:30. Sunday school in the morning at 9:30. All welcome.

The Evangelical church Sunday school will hold its annual picnic at Lum park on Monday, Sept. 7. Parents and children are requested to meet at the church at 10 o'clock in the morning. Everybody is invited to attend.

The Young Womens Christian Association will meet Monday evening, September 7, at the First Presbyterian church. Miss Luella Vanderwerker will lead the Bible study. The membership of the association is growing rapidly. All members are urged to be present.

First Methodist Episcopal church—All services of this church tomorrow at the Y. M. C. A. Morning, pastor's class at ten. At 10:30 sermon, "He Ascended Into Heaven." Bible school at noon. Evening at 7:45, praise service conducted by the Men's Gospel team. The public is cordially invited.

The Salvation Army Sunday services—Holiness meeting 11 A. M., subject, "Why we should be Holy," by Capt. O. A. Sandgren. Sunday school 3 P. M., subject, "David's Mighty Men." Salvation meeting at 8 P. M., subject "Halting Between Two Opinions," by Lieut. Larson. All are welcome. O. A. Sandgren, Capt.

First Baptist church—Morning worship at 11 A. M., conducted by the pastor. The communion service will follow the sermon. New members will receive the "Hand of Fellowship" and all members are urged to be present. Evening service at 8 o'clock. Subject, "Forgiveness." Bible school at 9:45 A. M. B. Y. P. U. at 7 P. M. You are cordially invited. R. E. Cody, pastor.

Presbyterian church—Morning worship and prayer at 10:30. The pastor W. J. Lowrie, will preach on the theme, "Rewards." There will be special music. The evening service will be at 8 o'clock and the theme will be "Another Chance." Miss Anna Michaelson will sing. Sunday school and Christian Endeavor will convene at the usual time. The church has been newly decorated and repaired. A welcome to all is extended.

Swedish Baptist church—Morning service at 10:30. The pastor will preach on the subject, "Power." Communion service at 11:30. The Sunday school meets at 12 o'clock. Young Peoples service at 7:30 P. M. The evening service at 8 o'clock at which time Rev. A. Erickson will speak. Prayer and praise service on Thursday evening at 8 o'clock. A cordial welcome is extended to all to attend the services at this friendly church. Rev. A. B. Colvin, pastor.

First Congregational church—Rev. Sheridan will occupy his pulpit morning and evening, his theme being "The Place of Faith in Christianity" and "Economics and Religion." The choir will sing at both services. It being Labor Sunday Rev. Sheridan will direct the line of thought at the evening service to this great theme. The Bible school will meet at 11:45. Services commence at 10:30 and 7:30 respectively. Everybody invited. Rev. G. Phil Sheridan, minister.

DEVELOPMENTS OF WEEK ON RANGE

Considerable Activity on the South Range at and Near Barrows, Many Drills There

MANGANESE ORE FINDS ASSAYS
Remarkable Manganese Finds at the Duluth-Brainerd Mine on the North Range

A section of the south range of the Cuyuna iron range which is a hive of industry is at Barrows and vicinity. The Barrows-Mississippi Co. is operating a drill near the town, the work being done by the Seaford Exploration Co., of Ironton. Nels Olson and John Johnson, of Superior, Wis., interested in the property, visited the drills Wednesday. The Barrows Mining Co., a newly formed company, is drilling in section 16, and is on its first hole. As soon as the proper amount of exploration work is done, the company will put down a shaft under the supervision of C. B. Rowley of Brainerd. A large body of high grade ore is being developed on this property. The Brainerd Mining Co., fee owners of land to the north of Barrows, have a drill engaged in exploration work. It is said they are finding a better grade of ore than expected. The Lenox Development Co., of which E. W. Thomas is president, is working out plans to operate its property four and a half miles north of Ft. Ripley. Drills will soon be at work. The large eastern acquaintance of the Lenox company helps them exceedingly. At the regular monthly meeting of the directors held in Little Falls last Tuesday important matters were considered as a result of which President Thomas will leave for the east in a few days.

The Adams mine is working steadily. No shipments have yet been made, all ore being stockpiled. But little water is being pumped and all is being easily handled by the pump-facilities provided. At the Wilcox mine of the Canadian-Cuyuna Ore company shaft sinking is in progress. The shaft has been anchored in solid rock and when the sinking has reached the required depth drifting will be done. The mine expects to ship from 5,000 to 10,000 tons this year before navigation closes.

At the Crow Wing county poor farm exploration work is being carried on by the Longyear company. P. W. Donovan, superintendent, says that assays for iron and manganese are being made. So far, says he, no manganese has been shown up. Hole No. 5 reveals forty feet of merchantable iron ore at 300 feet depth. Quality and quantity are improving as the drilling proceeds. The Longyear company is to put down nine holes and if the results are satisfactory they can get a mining lease from Crow Wing county.

The Inland Steel Co. Thompson

DEVELOPMENTS OF WEEK ON RANGE

Considerable Activity on the South Range at and Near Barrows, Many Drills There

MANGANESE ORE FINDS ASSAYS

Remarkable Manganese Finds at the Duluth-Brainerd Mine on the North Range

A section of the south range of the Cuyuna iron range which is a hive of industry is at Barrows and vicinity. The Barrows-Mississippi Co. is operating a drill near the town, the work being done by the Seafeld Exploration Co., of Ironton. Neils Olson and John Johnson, of Superior, Wis., interested in the property, visited the drills Wednesday. The Barrows Mining Co., a newly formed company, is drilling in section 16, and is on its first hole. As soon as the proper amount of exploration work is done, the company will put down a shaft under the supervision of C. B. Rowley of Brainerd. A large body of high grade ore is being developed on this property. The Brainerd Mining Co., fee owners of land to the north of Barrows, have a drill engaged in exploration work. It is said they are finding a better grade of ore than expected. The Lenox Development Co., of which E. W. Thomas is president, is working out plans to operate its property four and a half miles north of Ft. Ripley. Drills will soon be at work. The large eastern acquaintance of the Lenox company helps them exceedingly. At the regular monthly meeting of the directors held in Little Falls last Tuesday important matters were considered as a result of which President Thomas will leave for the east in a few days.

The Adams mine is working steadily. No shipments have yet been made, all ore being stockpiled. But little water is being pumped and all is being easily handled by the pump-facilities provided. At the Wilcox mine of the Canadian-Cuyuna Ore company shaft sinking is in progress. The shaft has been anchored in solid rock and when the sinking has reached the required depth drifting will be done. The mine expects to ship from 5,000 to 10,000 tons this year before navigation closes.

At the Crow Wing county poor farm exploration work is being carried on by the Longyear company. P. W. Donovan, superintendent, says that assays for iron and manganese are being made. So far, says he, no manganese has been shown up. Hole No. 5 revealed forty feet of merchantable iron ore at 300 feet depth. Quality and quantity are improving as the drilling proceeds. The Longyear company is to put down nine holes and if the results are satisfactory they can get a mining lease from Crow Wing county.

MINNESOTA STATE FAIR AND EXPOSITION
Hamline, Minn., September 7-12.

DEVELOPMENTS OF WEEK ON RANGE

(Continued from page 3)

mine at Crosby has two shovels in ore in the pit. The mine is also reported to have commenced underground work. The Croft mine at Crosby has a crew of 40 men at work on the buildings and the concrete reinforced steel chimney which is now 40 feet high and being built up at the rate of five feet a day. The Meacham mine at Crosby is silent, having never yet shipped. It was expected at one time that this property, which possesses a fine cement shaft and is ready for shipment purposes, would be extensively worked this season.

The mines of the Rogers, Brown Ore Co. are busy with the exception of the Armour No. 1 mine which has not been worked this season and which still has near the shaft about 10,000 tons of ore. Steam shovels are working at the Armour No. 2 mine at Crosby and the Kennedy mine at Cuyuna, adding their quota to the regular shaft shipments.

The Cuyuna-Mille Lacs and Cuyuna-Duluth mines, subsidiaries of the American Manganese Manufacturing Co., are working steadily. The iron being found at the Cuyuna-Duluth mine in Ironston is of a particularly high grade, a late assay card giving these values: Iron 62.58 and phosphorus .108; iron 63.34 and phosphorus .071; iron 63.11 and phosphorus .074; iron 63.94 and phosphorus .084.

So much interest has been awakened in manganese on the Cuyuna range that many eastern people have requested assay figures on sample properties. The Cuyuna-Mille Lacs mine of the American Manganese Manganese Manufacturing Co. is the pioneer manganese producing mine of the range. However, the Duluth-Brainerd mine is also making a good record and assays as made by the C. J. O'Connell Co. of Crosby are here-with given in full so that observers may see how the manganese, phosphorus, iron and silica range in samples. In laboratory number 50,325 there was found iron 23.41, phosphorus .137, manganese 34.40, silica 6.69; in laboratory No. 50,326 there was found iron 14.35, phosphorus .089, manganese 44.74 and silica 3.97. The main drift of the mine was sampled and showed for the first five feet iron 29.18, phosphorus .103, manganese 16.57 and silica 23.10; from 5 to 10 feet iron 32.81, phosphorus .067, manganese 21.01 and silica 4.41; from 10 to 15 feet iron 29.32, phosphorus .167, manganese 29.20 and silica 9.97; from 15 to 20 feet iron 37.50, phosphorus .122, manganese 17.17 and silica 6.02; from 20 to 25 feet iron 25.17, phosphorus .077, manganese 33.97, silica 6.82. On August 15 the main drift, in laboratory sample 50,522 gave these figures in the breast of the main drift: iron 16.05, phosphorus .095, manganese 41.37 and silica 3.30; iron 25.32, phosphorus .104, manganese 32.57 and silica 8.84.

The Iron Mountain mine is reported to have a crew at work and to have commenced drilling. Manganiferous ore is reported to have been found in large quantities. At the Cuyuna Iron & Manganese Ore Co. property check drilling is being carried on by the Jones & Laughlin company.

There is a rumor on the range that the M. A. Hanna Co., at one time identified with south range interests, is to enter the north range, manganese ore being the attraction which has brought back the company to the Cuyuna iron range. It is said the Hanna company is negotiating for manganese properties and it is expected that negotiations and their results may soon be announced. The European war has now progressed over a month and there has not been a rush of manganese ore shipments. With the raising of large armies in England it does not look probable that heavy manganese shipments can be made from England or continental Europe. In a way it would be more patriotic to assist in the further development of the native supply of manganese in the United States on the Cuyuna range than to go to far away Brazil of Europe to import some.

Fred D. Vibert, president of the Crow Wing Mining Co. was on the range Wednesday and was accompanied by John Long, W. G. Dolan and Lewis McCullough, all of Cloquet and by J. A. McDevitt of Duluth. This company lately sold a mining property to the Pittsburgh Steel Ore Co. at a good price.

L. L. Culbertson, of Duluth, president of the Cuyuna-Sultana company, was on the range Wednesday and was accompanied by H. J. Campbell, son of J. C. Campbell, a fee owner of property being developed by the Cuyuna-Sultana. Accompanying them was also George Rosenblad of Duluth. The Seaford Exploration Co. is operating two drills on their property in section 3, township 46, range 29.

H. J. Kruse, of Crosby, has two drills at work in the Little Pine country and near by at Emily the Rouchleaus, of Minneapolis, have been operating two drills for the last year or more.

A release of mining leases has been filed, the grantor being E. M. Hinkill and the grantee to the transaction the G. W. Murphy estate. The property includes the northwest quarter, the north half of the southwest quarter,

the southeast quarter of the north-east quarter, the southeast quarter of the southwest quarter of section 20, township 138, range 27; the south half of the southwest quarter of section 17, township 138, range 27; the north half of the northwest quarter, the southwest quarter of the northwest quarter of section 21, township 138, range 27; the east half of the southeast quarter of section 32, township 138, range 27; the south half of the southwest quarter of section 33, township 138, range 27; the southwest quarter of the northwest quarter and the west half of the southwest quarter of section 27, township 138, range 27; the northeast quarter of the southwest quarter of section 29, township 138, range 27. There has been an assignment of interests between the Moeztuma Iron Co. and Charles S. Slack, the property being in the northwest quarter of the northeast quarter of section 25, township 47, range 29.

William R. Spencer, who died at Aitkin, member of the firm of Spencer & Hunt, had spent years in developing mineral land within a short distance of Aitkin and had proven up an ore body. He organized the Cuyuna-Bessemer Co. having numerous holdings. Associated with him were Dr. D. J. Murphy of Aitkin, P. H. Gillespie, now of Ironston, Wm. A. Hunt and George Lounsbury of Duluth. The body of Mr. Spencer was sent to Des Moines, Iowa, for interment. He died just when success was in his grasp and had crowned his untiring endeavors.

On the range this week was Joseph J. Hennen, of St. Paul, who is largely interested in Cuyuna range lands, having 3,600 acres and distributed in part near Crosby, Manganese and Emily. He owns a half interest in three forties adjoining the Rowe mine on the west which is now under option for a lease to Osterberg & Johnson, who are drilling there. He also has an interest in lot 1 of section 18 north of the Rowe mine.

Michael Flynn, of Manganese, has some valuable property near the town on which he draws \$2,500 royalty annually. The Merritts are reported to have drills at work in section 33, township 47, range 29.

In reviewing the iron business in the United States the Iron Trade Review, of Cleveland, Ohio, in its last issue says: "Following a period of considerable excitement in finished materials, owing to the European war the iron trade is coming to a realization that any benefits that may result from the war will come slowly and probably for many months domestic demand must be depended upon almost exclusively. Although inquiries from abroad are pending in increasing numbers, very few of them have developed into orders and demand for consumption in the United States is decreasing. Hence the present sentiment in the market is not as optimistic as it had been during the preceding two weeks, but confidence that in time there will be a tremendous expansion of business remains unshaken."

Renewed reports during the past few days that the English government has placed an embargo upon ferro-manganese proved to be without foundation according to direct cable advices received from English manufacturers. While it has been suggested that the government place such an embargo and the matter has been given considerable consideration, the opinion is expressed in well-informed circles that no such action finally will be taken. It is understood, however, that certain metals have been embargoed by the English government."

The Dunbar furnaces of the American Manganese Manufacturing Co., which will make ferro-manganese from Cuyuna range ores, will operate on basic iron ore for about a fortnight. The stack will be in operation in early October, according to plans.

The Seafeld Exploration Co. is operating two drills on their property in section 3, township 46, range 29.

H. J. Kruse, of Crosby, has two drills at work in the Little Pine country and near by at Emily the Rouchleaus, of Minneapolis, have been operating two drills for the last year or more.

A release of mining leases has been filed, the grantor being E. M. Hinkill and the grantee to the transaction the G. W. Murphy estate. The property includes the northwest quarter, the north half of the southwest quarter,

the southeast quarter of the north-east quarter, the southeast quarter of the southwest quarter of section 20, township 138, range 27; the south half of the southwest quarter of section 17, township 138, range 27; the north half of the northwest quarter, the southwest quarter of the north-west quarter of section 21, township 138, range 27; the east half of the southeast quarter of section 32, township 138, range 27; the south half of the southwest quarter of the southeast quarter of section 33, township 138, range 27; the southwest quarter of the northwest quarter and the west half of the southwest quarter of section 27, township 138, range 27; the northeast quarter of the southwest quarter of section 29, township 138, range 27. There has been an assignment of interests between the Motezuma Iron Co. and Charles S. Slack, the property being in the northwest quarter of the northeast quarter of section 25, township 47, range 29.

William R. Spencer, who died at Aitkin, member of the firm of Spencer & Hunt, had spent years in developing mineral land within a short distance of Aitkin and had proven up an ore body. He organized the Cuyuna-Bessemer Co. having numerous holdings. Associated with him were Dr. D. J. Murphy of Aitkin, P. H. Gillespie, now of Ironston, Wm. A. Hunt and George Lounsbury of Duluth. The body of Mr. Spencer was sent to Des Moines, Iowa, for interment. He died just when success was in his grasp and had crowned his untiring endeavors.

On the range this week was Joseph J. Hennen, of St. Paul, who is largely interested in Cuyuna range lands, having 3,600 acres and distributed in part near Crosby, Manganese and Emily. He owns a half interest in three tracts adjoining the Rowe mine on the west which is now under option for a lease to Osterberg & Johnson, who are drilling there. He also has an interest in lot 1 of section 18 north of the Rowe mine.

Michael Flynn, of Manganese, has some valuable property near the town on which he draws \$2,500 royalty annually. The Merritts are reported to have drills at work in section 33, township 47, range 29.

In reviewing the iron business in the United States the Iron Trade Review, of Cleveland, Ohio, in its last issue says: "Following a period of considerable excitement in finished materials, owing to the European war the iron trade is coming to a realization that any benefits that may result from the war will come slowly and probably for many months domestic demand must be depended upon almost exclusively. Although inquiries from abroad are pending in increasing numbers, very few of them have developed into orders and demand for consumption in the United States is decreasing. Hence the present sentiment in the market is not as optimistic as it had been during the preceding two weeks, but confidence that in time there will be a tremendous expansion of business remains unshaken."

Renewed reports during the past few days that the English government has placed an embargo upon ferro-manganese proved to be without foundation according to direct cable advices received from English manufacturers. While it has been suggested that the government place such an embargo and the matter has been given considerable consideration, the opinion is expressed in well-informed circles that no such action finally will be taken. It is understood, however, that certain metals have been embargoed by the English government."

The Dunbar furnaces of the American Manganese Manufacturing Co., which will make ferro-manganese from Cuyuna range ores, will operate on basic iron ore for about a fortnight. The stack will be in operation in early October, according to plans.

THOUGH YOU ESCAPE WITH YOUR LIFE if fire occurs at your place, you will not find it sweet if the flames leave you penniless. All your remaining days will be filled with regret that you hadn't taken out insurance when you could. Fire is just as likely to happen to you as to anybody else. Be wise and have us insure you today. Then fire will not spell ruin for you.

LET'S GO to the Minnesota State Fair and Exposition

Hamline, Minnesota
Midway between Minneapolis-St. Paul
September 7-12, 1914

We will not attempt to list or describe the attractions that will be shown; to do so would require a large volume. A good fair stimulates all arteries of agriculture, commerce and education, encourages further development of natural resources and reflects the prosperity and growth of your state. Every good citizen should if possible at least confer the benefit his or her presence may yield by attending.
